

Attic Studio

Economy 3 section folding ladder for light duty use in Standard or truss roofs

Customer Profile:

Suits customers who will use the ladder occasionally and who want an economy style ladder for ceilings up to 2.87 metres.

Attic studio ladders suit customers who want to fit the ladder in a confined space.

Suits Do-it-Yourself installation where the customer wants an economy quality ladder.

Suits customers where sound or thermal insulation may be an issue.

Customer Benefits:

- 560mm opening for access and easy installation to standard or common truss roof spacing.
- Made in spruce timber for utility and reliability.
- Metal hand rail can be fitted to either side of ladder
- 74° angle and minimal standout makes fitting in tight spaces easier.
- Unique counterbalance system and double springs allows simple operation.
- Stable 100kg spread load capacity for long life with occasional use.
- White melamine finish on top and bottom of hatch removes the need to prime and paint.
- Insulated hatch to minimise heat loss and sound transmission.
- Includes a clip latch and draft excluder for extra tight closing.
- Comes completely assembled, ready to install and with full instructions making home installation trouble free.

Accessory	Application
Turbine ventilator	Quality Edmonds "Windmaster" turbine ventilators ventilates and controls temperature and moisture
Turbo beam ventilator	"Turbo Beam" clear turbine ventilator keeps your attic cooler in summer and gives light all year round.
